Previous Semesters, including legacy reading lists

1. [Spring 2021](#)
2. [Fall 2020](#)
3. [Fall 2019](#)
4. [Spring 2019](#)

Standard paper study questions

1. Write a short (max 5 sentences) summary of the paper.
2. What is the problem addressed in the paper?
3. Why is the problem important?
4. How do the authors address the problem?
5. How do they evaluate their approach?
6. What is the punch-line (key cool idea, or "what I got out of this paper")? This is often different

for different people and different from what the authors may have intended.

7. Make a list of deeper questions that you would like discussed in the meeting.
